PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate with internship experience in web development and cybersecurity. Proficient in SQL, PostgreSQL, Java, and Python, with strong analytical, problem-solving, and system analysis skills. Seeking a junior IT Helpdesk or Software development position where I can apply my technical and analytical skills to support data-driven decision-making in the banking and financial services industry.

TECHNICAL SKILLS

Programming: Java, JavaScript, PHP, Python

Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS

Data & Analytics: SQL, Microsoft Excel (Intermediate), Data Analysis

Databases: PostgreSQL, MySQL, Firebase

Tools: Git, GitHub, Visual Studio Code, IntelliJ IDEA, PyCharm, Figma, Microsoft Office

EDUCATION

Bachelor of Science in Information Technology

Polytechnic University of the Philippines 2021-2025

Sta Mesa, Manila, Philippines

PROFESSIONAL EXPERIENCE

Front-End Web Developer Intern

Lamina Studio, LLC (Thumbworx Project) 2025

- Developed a responsive homepage for a client website using HTML, Tailwind CSS, and JavaScript.
- Implemented responsive layouts to ensure compatibility across desktop and mobile devices.
- Collaborated with the development team by incorporating feedback and testing the homepage before deployment.

Cybersecurity Intern (Penetration Tester)

Lamina Studio, LLC 2025

- Performed a penetration testing activities by identifying and assessing security vulnerabilities in controlled environments.
- Utilized security tools like Kali Linux, Wireshark, Nmap, Nikto, and Metasploit to perform network analysis, vulnerability scanning and security assessment.
- Participated in team exercises to simulate cyberattacks, evaluate defensive measures, and strengthen security awareness.

PROJECTS

Project Leader & Full-stack Developer 2024-2025

TrackCycle – A Digital Approach Enhancing Motorcycle Loan Management (Capstone Project)

- Led a team in designing and developing a web and mobile loan management system using React, Node.js, and Firebase.
- Developed features for loan application processing, loan calculations, and referral management.
- Contributed to implementing biometric authentication and machine learning-based fraud detection to enhance system security.
- Coordinated project planning, task assignments, and progress monitoring throughout the development lifecycle.

CERTIFICATIONS & TRAINING

Computer System Servicing NC II (CSS NC II)

TESDA | 2026 – Present

- **Hardware Assembly & Disassembly:** Assemble and Disassemble Computer Components from scratch, performed system upgrade, and executed diagnostic troubleshooting on core hardware.
- **Server Configuration:** Configured server roles and network services, including Active Directory, DNS, DHCP, and user access controls
- **Network Configuration:** Set up and managed Local Area Networks (LAN), configured router/switch settings, and managed IP addressing.
- **Network Architecture:** Setup a cable infrastructure by testing UTP network cables (Straight-through/Crossover) for Peer to Peer, SOHO (Small Office and Home Office), SMB (Small and Medium Business) network configurations.
